## PURPLE POWER

## Heavy Duty Butyl Degreaser

**Positive Emulsion** - Spontaneously emulsifies greasy soil to improve cleaning and prevents soil/dirt redeposition.

**Balanced Builder Blend** - Sustained, buffered alkalinity and excellent rinse-ability

**USDA Rating** - A-1

### Directions

Wear safety equipment recommend on the MSDS. Read all Directions and cautions prior to beginning work, remove loose soil and garbage before cleaning floors, and place wet floor signs near work area.

The detergent dilution rate will vary depending on the delivery method and the facility; A recommendation can be made by an MCP customer service representative.

### Application

Purple power is an industrial degreaser used for general maintenance of floors, walls, machinery, mechanical cleaning devices and dip-tank applications.

### Professional Recommendations

Purple Power is a great detergent to use in "catch-up" situations when a deep cleaning is needed, but it works best when it is used regularly. Purple Power performs great in greasy, oily environments and cuts through the grime to produce clean floors. The use of an automatic floor scrubber with grit brushes will enhance the cleaning of unfinished concrete floors and other industrial floors. If you are cleaning with a mop and bucket, change your solution frequently to get peak performance and do not let the mop rest in the cleaning between uses. If your are using Purple Power with a pressure washer, stay clear of the mist produced by the pressure washer.
